

PERFECT FIT

COLLECTION CENTER ISLAND

Efficiency rules.

MCC
Modular & Custom Cabinets

**TAILORED SOLUTIONS
FOR YOUR DENTAL PRACTICE**

Our Perfect Fit Center Islands are right at home in the center of your patient service areas. Make yourself comfortable.

'Green' construction. Our Perfect Fit Cabinetry is also available using environmentally friendly manufacturing techniques. 'Green' construction means our cabinets contain no urea formaldehyde resins and are built with water-based adhesives. As a result, they are LEEDS compliant.

When space is at a premium, our Center Islands are the perfect solution. Center islands offer several advantages over closed room designs, while maintaining appropriate patient privacy.

Consider the following additional benefits:

- Reduced construction costs, plus considerable savings associated with sharing a single intra-oral X-ray between two adjacent operatories.
- You can choose from either Solid Surface or Caesarstone® patterned countertops for a stylish custom look and easy cleaning.
- You'll find plenty of room for CPU storage in the upper cabinets. Below, you'll find the latest under mounted stainless steel sink with all the hardware and plumbing included.

Investing in well designed, high quality cabinetry today pays high dividends down the road, as practices evolve to meet new and ever demanding needs.

Talk to our experts about any special features you may require. A few simple custom modifications are a cost effective way to guarantee the 'perfect fit' for your practice.

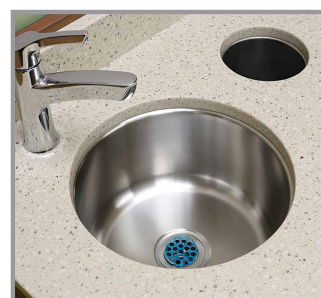

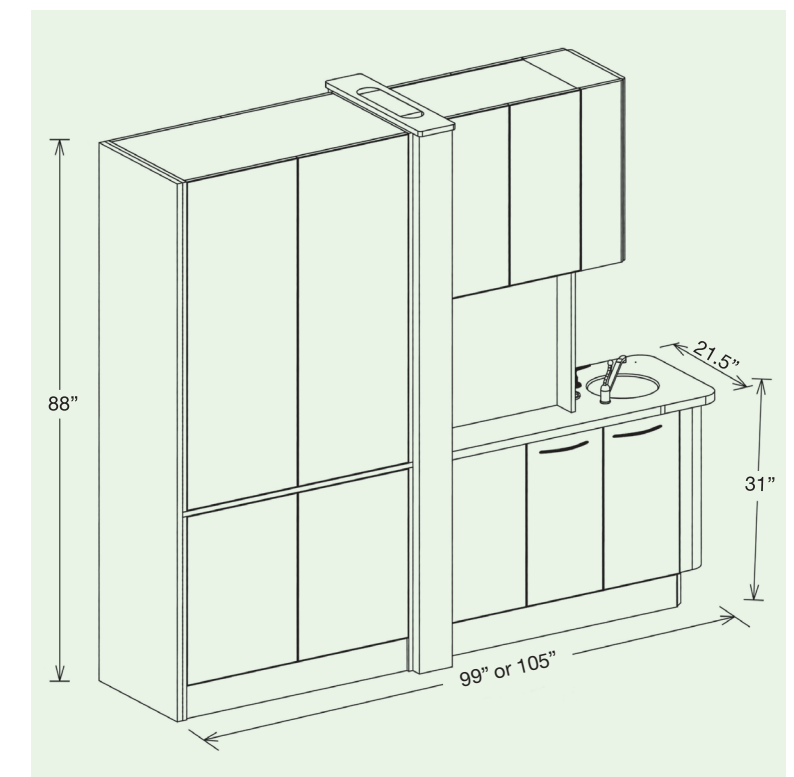

PFC15000
